

MATERIALS:

- Safety scissors
- A pencil
- Objects from nature to represent them
- 2 paper clips (or tape)

INSTRUCTIONS:

1. Cut out holes and fold along the fold lines
3. Paper clip or tape edges together
4. Put safety scissors and pencil through their holes, so they rest on the table
5. Go outside! Find things that remind you of the scissors and pencil. Put them in the other holes.

WHAT'S THE POINT?

This is an imagination game, choosing what you want to match with a pencil and some scissors. You can choose things that look like them, or feel like them - you can even choose something that is shiny like the scissors. If you want, you can pretend you're finding the scissors and pencil a best friend.
